## Minor Declaration Form

---

A minor program is intended as an optional program that encourages coherence in the work that an undergraduate bachelor's degree student undertakes **outside** his/her major field of study. All minors are available to all students regardless of their major, with the exception that students may not minor in their major. A student may complete one or more minor programs. A minor program contains at least 18 credits. A minimum of 50 percent of the credits in a minor must be unique to that minor when compared to a student's major(s), other minor(s) or concentration. The student must earn a minimum grade of "C" in each required course if the minor is to be reflected on the transcript.
